Other things....

There is a need for growth/expansion of a teen evangelism - pray for direction & leadership for this necessity, as well as timing.

Discipleship is crucial to believers. We have enjoyed being part of it in a few lives, but there needs to be more, as well as a desire to be discipled. Please pray for this, too.

The Fall of 2019 we are planning to return to the states for a few months. We would love opportunities to share what God is doing.

THINGS I HAVE LEARNED WHILE GARDENING

Working in a garden along with God can be a great teacher!

1. Your neighbors have some good ideas - listen to them
2. Be thankful for volunteers, even if they aren't exactly what you planned on. Enjoy the fruits of their input and 'help'.
3. Even in the best tended garden, weeds happen - take care of them before they overtake. The same is true in our spiritual lives!
4. Having a plan and starting it is a great way to get going - carry on!
